WORK EXPERIENCE

Full Stack Developer Intern — Nexzem Technologies

Apr 2026 – Jul 2026

Dehradun, Uttarakhand, India | On-site

- Built a multi-tenant POS platform end-to-end on a live production codebase, supporting 8+ business verticals and 50+ active retail outlets
- Developed 70+ RESTful APIs and implemented role-based access control across 4 user roles, cutting unauthorized-access incidents by 30%, while actively participating in Agile/Scrum ceremonies (sprint planning, standups, retrospectives)
- Promoted to Team Lead for the intern batch after 2 months based on strong codebase ownership and dependable execution; guided sprint planning and code quality reviews for a 6-member team
- Collaborated on database design and production deployments with the engineering team, improving release frequency by 20%

Full Stack Developer Intern — Novanectar Services Pvt. Ltd.

Jan 2026 – Apr 2026

Dehradun, Uttarakhand, India | On-site

- Delivered full-stack modules for a SaaS billing platform (BissBill) supporting 100+ subscribers: Google OAuth, subscription workflows, customer dashboards, payment tracking, and role-based admin panels, cutting manual billing errors by 40%
- Built an editorial CMS enabling writers to independently manage blog/news publishing, boosting publishing throughput by 35%;
- Developed an ISMS intern-tracking system with clock-in, idle-time monitoring, and admin analytics used by 50+ interns

Frontend Intern — Aiking Solutions Pvt. Ltd.

Jul 2025 – Oct 2025

Remote

- Contributed to and built 10+ responsive, reusable UI components for JobFormAutomator, an AI-powered job application automation tool, using Next.js and Tailwind CSS, improving page load performance by 30% and usability scores by 25%

PROJECTS

QRScan – Restaurant QR Menu Platform | Next.js, Node.js, Express.js, MongoDB

- Built a multi-vendor SaaS platform enabling restaurants to create, manage, and publish digital QR menus with full CRUD operations and QR code generation
- Implemented OTP-based vendor authentication and mobile-first, fast-loading customer-facing menu views, reducing average page load time by 40%

Himalayan Yatra Travels – Cab Booking Platform / *Next.js, Tailwind CSS*

- Built an SEO-optimized cab booking website for hill-region travelers with transparent pricing and private booking workflows, growing organic traffic by 45%
- Integrated a WhatsApp-based inquiry system

EDUCATION

Bachelor of Science in Information Technology

2021 – 2024

Modern Institute of Technology, Dhalwala, Rishikesh
